

STOUT – Technical rider

Attention: If not agreed on otherwise explicitly, this technical rider is an integral part of the contract. If the technical requirements cannot be met, please contact us at 0049 170 2467168 (Simon).

1. Sound

The organiser provides the artists with the following:

- PA-System fitting the halls size
- Eight (8) mixing channels plus separate reverbs for vocals and instruments
- One (1) monitor channel with XLR-cable. This is operated with in-ear. A stage monitor as emergency backup is always nice-to-have.
- One (1) monitor channel with stage monitor box.
- A technician that is in charge of the PA and mixer during soundcheck and concert.
- One (1) instrument mic for accordion (suitable condenser microphone)
- Four (4) XLR-cables for band-owned mics
- Three (3) DI-Boxes
- Two (2) large boom-stands, one (1) small boom-stand
- 220V on Marios stage side
- Two (2) chairs without armrest (no barstools please)
- Besides we are grateful for four (4) bottles of still water on stage

STOUT – Technical rider
